Shannon Building Waks Being Laid

That in Front of Annex Already in! while Foundation for
the Other is Being Prepared—Stone Work on James
Bank Goes Ahead—Other Building Operations.

For the past few days workmen have
been preparing the foundation for the
new reinforced granolithic walk in
front of the Shannon building annex
which walk was put in on Tuesday.
It is slate colored and will make an ex-
cellent finish to the building front. The
attention of the workmen has been di-
rected to the finishing of this annex
where in the stores plastering has been
completed and the show window and
door frames are in place, and it will
now be but a few days before the roof
is placed therein. The staging has all
been removed from the front of the
building and the windows are all in.
The annex making a decided improve-
ment to the street in contrast with the
former one-story building there.

While the plasterers are at work
throughout the Shannon building,
workmen have also been busy getting
the windows into working shape and
painting the sash, which has made a
distinct improvement in the appear-
ance. The foundation for the walk
in front of the building is now being
put in. The skylights are in and the
main floor windows can be placed as
soon as the glass is available.

Bank Buildings.
Another shipment of stone has been
received on the Thames National bank
job and the setting up of the decorated
doorway is under way. The side pieces
have been set and as soon as more of
the material arrives the work will be
pushed along rapidly.

The main floor of the Chelsea Sav-
ings bank building, which is of con-
crete, has been poured and until it
hardens and permits the workmen to
use it there will be a hull, but within a
fortnight work on the stonework of the
building will be pushed along.

The Slater barn has been placed on
the foundation on the McNamara
property in Slater avenue and plans
have been secured for altering it into
two eight-room flats.

The plans for a four-room school-
house at Moosup are being made. It
will be a wooden building, costing
about \$10,000, with a gravel roof. It
will be steam heated. A. Couture of
Moosup has been awarded the contract
for a new block for A. Cote at Baltic.
It will be of brick, with steel beams

and gravel roof. It will be arranged
for three stores and four flats.

New Paper Mill.

The large force of men employed by
the Bigelow-Harriman Construction
company in the erection of the new
paper mill in Unessville resumed work
Monday morning after the Easter hol-
iday. The greater part of the mill
buildings are completed so far as the
exterior brickwork is concerned,
the bricklayers being at present at
work on the south building, which has
been raised to the top of the first-
story windows. In the interior of this
room the ironworkers were busy yester-
day, setting up pillars and girders,
making excellent progress.

On the larger building the carpen-
ters have been at work on the roof
timbers for several days and most of
the space is already under cover. The
material to form the concrete founda-
tion for the big boilers has been de-
livered by the C. V. railroad, and a
commencement on this will be made
at once, the excavation being com-
pleted and the ships set. The approx-
imate estimate made a few days ago
as to the capacity of the four boilers
is now stated to be under the mark,
each boiler being figured to give
somewhere about 220 horsepower—a
total of about \$80 horsepower.

The first consignment of parts of
one of the engines is expected to be in-
stalled some time in a few days ago
and more of the machinery is in trans-
it. The company will be able to com-
plete a portion of the plan and have
it in operation probably before all the
mill leaves the hands of the construction
company.

Superintendent McCullum had a
large derrick shipped to the dam on
Saturday the engine and hoisting gear
being unloaded and set up ready for
use on Sunday, this being necessary,
as the work would obstruct the traffic
on the Vermont street car track
on any other day. The water leakage
into the excavation for the dam has
been kept under control for several
days and Mr. McCullum will proceed
with the filling in of concrete there
as soon as the first of the forms has
been built across the center of the
dam.

And Sole Right to Manufacture All

It was announced on Tuesday by the
Hopkins & Allen Arms Co. to the fire-
arms trade that they had acquired the
patents and right to manufacture all
the models of single and double guns
of the W. H. Davenport Fire Arms Co.,
and that the services of W. C. Daven-
port had been secured by the company,
so that he would return to the company,
with which he was formerly connect-
ed. This, it is believed, will result in
an increased business.

by the company to the "trade":

We have acquired sole right to man-
ufacture, and have purchased all pat-
terns, jigs, fixtures and special equip-
ments pertaining to all models of single

be placed at once to assure prompt
delivery.

THIRD COMPANY WINS

mory with Many Present to Watch
the Fun.

On Tuesday evening the regular
weekly drill of the Fifth company was
held at the armory with a good num-
ber in attendance. There was no
meeting of the company.

Following the drill there was a large
gallery to witness the indoor baseball
game between the Fifth and the Third
companies. Each company had won a
game, so that there was particular in-
terest in this deciding game. It proved
an easy win for the Third com-
pany, however, 29 to 8, the added
strength by the taking over of Captain
Hagberg and Lieutenant Coleman be-
ing just the stimulant needed by the
Third company. The Third company
scored in every inning except the third.

The teams played as follows:

Coleman ss, Mason ss, Bossey p, Hag-
berg 3b, Smith rf, Orman c, Malmer 2b.

No stomach dosing. Hyomei is made
chiefly of oil of eucalyptus and eucaly-
ptol taken from the eucalyptus forests
of inland Australia, and combined with
the excellent antiseptics employed in

In inland Australia the atmosphere is
so impregnated with balsam thrown
out by the eucalyptus trees that germs
cannot live, and in consequence catarrh
and consumption are unknown.

Breathe Hyomei and get the same
pleasant germ killing air as you would
get in the eucalyptus forests.

Hyomei is sold by druggists every-
where and by The Lee & Osgood Co. at
